The vehicles shown in this brochure are occasionally pictured with additional accessories or special fittings. These, along with any decorative elements depicted, are not included in the scope of delivery of the product described.

# Volkswagen Accessories. 100 % Volkswagen.

Every single Volkswagen Genuine Accessories product is developed in parallel with the vehicle itself, and manufactured from high-quality materials using state-of-the-art production processes. The products are tailor made to fit our vehicles perfectly, and are only included in the Volkswagen Genuine Accessories range once they have passed our strict safety tests that exceed the legally prescribed standards. So that you stay safe and satisfied. And your Volkswagen stays a Volkswagen.

## Product characteristic pictograms.

Products from Volkswagen Accessories have many unique characteristics. These pictograms indicate particularly interesting features.

Tool-free  
installation

Environmentally  
friendly

Product innovation

Wheel  
enhancement

Volkswagen  
City Crash test

Custom colours  
available

Load capacity

Fuel efficient

Can be used in  
various models

Particularly suited for  
family use

Recyclable

Particularly suited for trade  
and commercial use

---

# Sport and Design

Functional, powerful, reliable – these products are specially designed to show off your vehicle's unique style. Whether you think less is more or more is more, it's completely your choice. With Volkswagen Accessories, you can enhance the sportiness and design of your vehicle as much as you like. A range for everyone who wants their vehicle to be as dynamic and powerful on the outside as it is on the inside.

## Note

Image shows:

**Amarok styling bar** page 08,

**Amarok side bar with step** page 09

#### 01 Volkswagen Genuine bumper trim

This bumper trim gives the Amarok a powerful and distinctive look. It highlights the front of the vehicle, and the textured effect adds a touch of classic off-road style. The two-colour trim spans the entire front of the vehicle.

#### 02 Volkswagen Genuine key cover

Give your car keys a makeover with a stylish key cover, available in a range of designs and lettering options. Simply attach one to your key and away you go.

**03 / 04 Volkswagen Genuine decal pack**

Emphasise the powerful look of your vehicle with these high quality decals made from black or silver designer film. The embossed lettering adds a striking finishing touch. The decals are designed to highlight both the powerful and the stylish sides of your vehicle. The decal pack consists of four film decals for the lower door areas. For the Amarok.

**03 Decal pack silver**

**04 Decal pack black**

**01 / 02 Volkswagen Genuine styling bar**

A visual highlight with an amazingly dynamic and robust look: The twin pipe styling bar gives your pick-up that classic, powerful edge. The 76 mm thick pipes are mounted onto the edge of the cargo area, ensuring that the total loading volume remains unaffected. Can be combined with the plastic cargo area cover. For the Amarok.

**01 Stainless steel, mirror finish**

**02 Black**

**03 Volkswagen Genuine running board**

For striking side lines. The aluminium running boards are custom-made to fit your vehicle perfectly. They not only give it an elegant look, but also make it easier to enter and exit the vehicle. The running boards are mounted on the vehicle's standard mounting points and do not require any drilling at all. They can hold up to 200 kg. For the Amarok.

#### **04 Volkswagen Genuine side bar**

The solid side bars are made from mirror-finish stainless steel and are designed to give your Amarok a sporty yet elegant look. The side bars are mounted on the vehicle's standard mounting points using the brackets included and do not require any drilling at all.

#### **05 / 06 Volkswagen Genuine side bar with step**

The side bar is both an impressive highlight and a practical feature to help you enter and exit the vehicle and load items onto the roof. The solid side bars with an integrated step give your vehicle a striking look. Powerful and robust, they come in black powder-coated steel or sporty and elegant mirror-finish stainless steel. Both versions are mounted on the vehicle's standard mounting points using the six brackets included, with no need for any additional drilling. Load bearing capacity: up to 200 kg. For the Amarok.

**05 Stainless steel, mirror finish**

**06 Black**

#### **07 / 08 Side bar**

The stainless steel (for the T6 and Crafter) and black (for the T6) side bars not only enhance your vehicle's looks, but can also help to prevent damage in the event of minor accidents.

**07 Stainless steel**

**08 Black**

## Sport and Design

This overview shows the options available for the individual products in our Sport and Design range for our current vehicle models. Please contact your Volkswagen Partner for more information as to whether the options can be installed on your particular vehicle. Many of the products are available in different versions. See the attached **price list** for an overview of all available versions.

# Alloy Wheels and Complete Wheels

Reliability, innovation, design – think you can't get all three in one product? Think again. Our wide range of high quality alloy wheels and complete wheels have everything you need. Just add your vehicle.

---

# Reliable Complete Wheels.

## Understanding the essentials. Our manufacturing expertise.

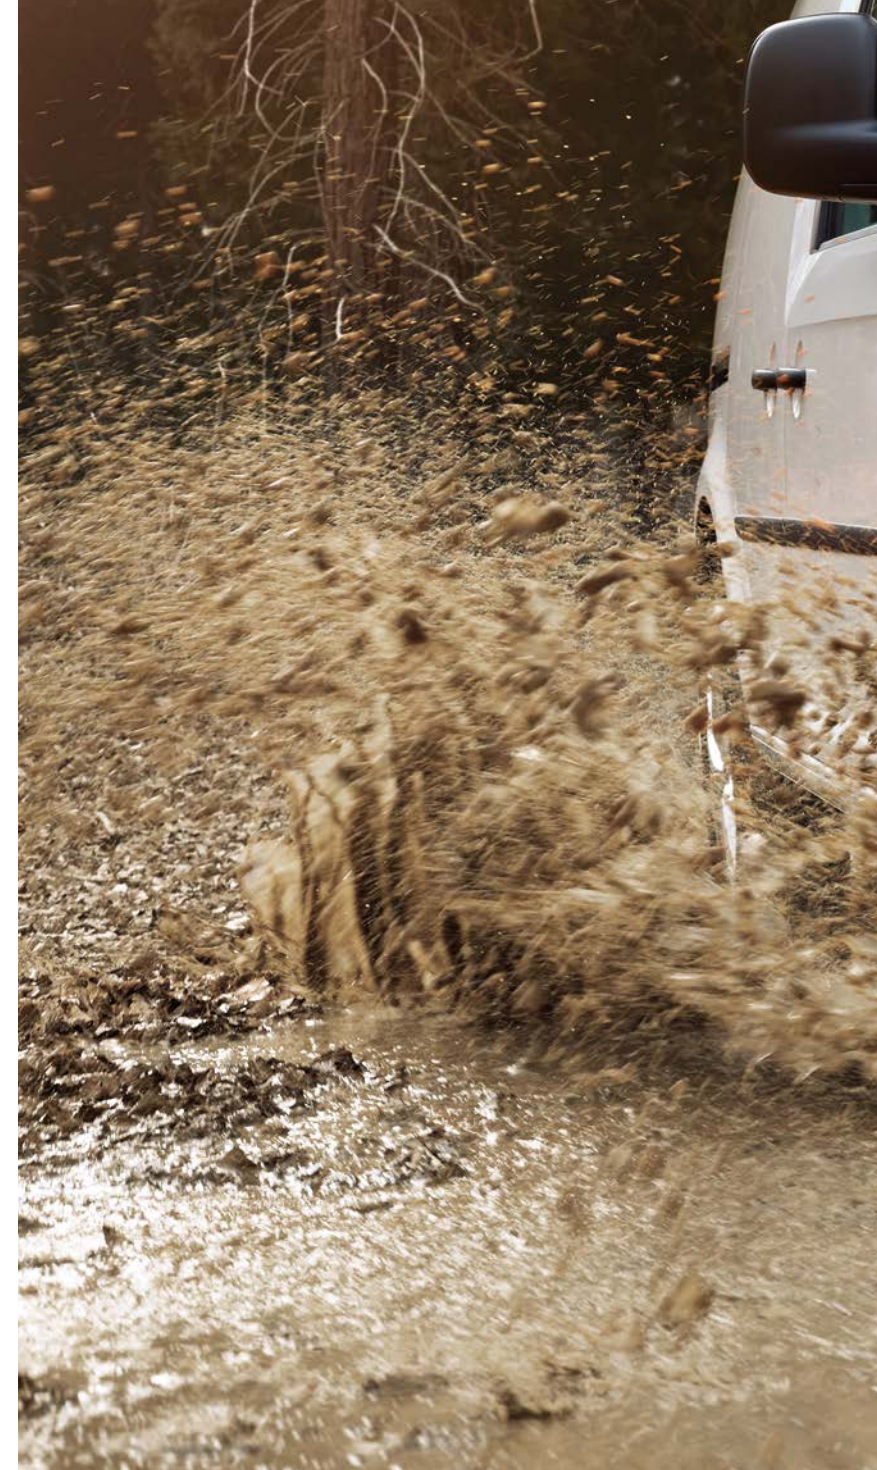

Our complete wheels offer everything that Volkswagen Accessories stands for: top quality, maximum safety and state-of-the-art design. No other vehicle component bears as much responsibility as the wheel. Both in terms of safe driving and the vehicle's overall appearance. Which is why we offer a wide selection of complete wheels you can rely on. In every respect.

Complete wheels from Volkswagen Accessories are designed to match the corresponding Volkswagen models perfectly. Due to their many years of experience, our engineers know how to compile the perfect combination of wheel, tyre and vehicle, while also ensuring that each design meets Volkswagen's high quality and safety standards. The technical installation checks are an essential part of this, taking into account the engine variants and brake dimensions as well as axle loads.

## True workhorses. The selected premium tyres.

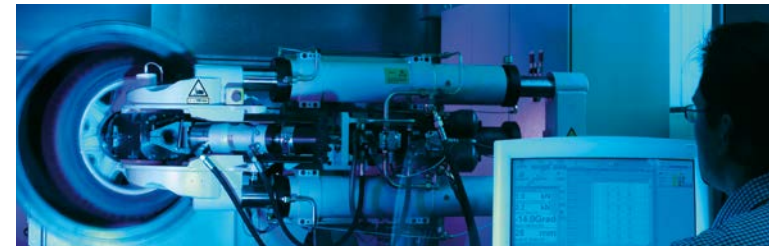

Over the course of its average lifetime, a tyre can travel far enough to circumnavigate the globe. It is what keeps the vehicle connected to the road. It must be suited for a wide range of different driving conditions and provide performance you can rely on. A top quality tyre is therefore absolutely essential. We work with leading premium tyre manufacturers to ensure that our tyres provide optimum contact with the road surface – every time you drive.

Scan the QR code to explore the full range of alloy wheels and complete wheels from Volkswagen Accessories!

### **When everything works together. The complete wheel assembly.**

At state-of-the-art production facilities, our fully-automatic assembly processes combine wheels and tyres to create single, high-quality units. The precise assembly procedures are carried out in temperature-controlled environments to help ensure that all of our complete wheels are of the highest quality, and also provide you with a range of other key advantages:

- Optimised rotational and axial measurement for each and every wheel
- Residual imbalance check for each individual vehicle
- Expert storage until complete wheels are ready for delivery

### **Only the best succeed. The Volkswagen Genuine alloy wheels.**

- Strength tests check wheel loads when the vehicle is overloaded, in a collision and driving round corners.
- Materials and surfaces are checked for resistance to traction, extension, scratches and corrosion.
- Vehicle tests check the complete wheels under tough conditions on the test track.
- Endurance testing on the dual axle wheel test bench simulates the highest possible load.

Our attractive summer alloy wheels deliver an outstanding combination of timeless design and excellent quality.

#### Summer alloy wheels

19-inch		18-inch

# Communication

The most important thing about any technology is that it works perfectly, every time. This goes for both the devices you use for work and those you use at home. Which is why we ensure that all of our communication solutions feature state-of-the art technology, provide the functionality you need and are fully compatible. So you can do everything you need to while you're on the move. At the push of a button.

## Note

Image shows:

Travel and comfort system tablet holder page 24

#### 01 Volkswagen Genuine LinkKit

The LinkKit attaches to the centre console on the front passenger side and is compatible with a number of different mobile telephones. The folding mechanism on the universal mobile phone aerial coupling pocket ensures that the device is securely fixed into place. Simply press the release button to remove it. The aerial connection on the pocket can be connected to a window aerial or external aerial. This significantly improves the reception quality and reduces power consumption.

#### 02 Volkswagen Genuine CarStick

Create a Wi-Fi hotspot in your vehicle in seconds: Simply insert a suitable SIM card<sup>1</sup> into the Volkswagen CarStick and connect it to the Discover Media navigation system, and you can dial into your own on-board Wi-Fi system with as many devices as you wish. The CarStick can also be used to generate an internet connection for mobile online services (Volkswagen CarNet). Simply plug it into the vehicle's existing USB socket and away you go. For the T6 and Caddy.

<sup>1</sup> SIM card and mobile data use are not included and must be purchased separately from a suitable mobile telephone provider. Depending on the provider, additional costs may be incurred for data use.

iPod/iPhone is a registered trademark of Apple Computer International.

#### 03 PhoneKit Bluetooth hands-free system

The PhoneKit enables you to make telephone calls while driving, without your hands leaving the steering wheel. By getting rid of the additional functions you rarely need, you can concentrate on what really matters: the road. The illuminated 3-button remote control, which is the only visible part of the hands-free system, can be easily installed in the vehicle and is extremely simple to operate.

#### 04 Volkswagen Genuine SmartFit mobile phone holder

The universal SMARTFIT car mount has been specially developed for the latest smartphones measuring between 60 and 65 mm wide. The patented suction cup solution ensures that it remains firmly attached to the dash panel even if the surface is rough. The 3D ball joint allows you to rotate the device through 360° – perfect for navigation systems and apps such as the Volkswagen RaceApp.

#### 05 Garmin nüvi 2567LMT

Stay on track with the Garmin nüvi 2567LMT navigation system. It boasts a 5 inch colour touchscreen display and lifelong map updates, as well as a lane guidance feature, TMC, Garmin RealDirections and a MicroSD card slot. The device comes preloaded with navigation map data for 45 European countries.

#### 06 TomTom Start 40 / Start 60 / Go 500 Europe / Go 6000 Europe

(Image shows: Go 6000 Europe)

Ensure you always take the fastest possible route to your destination with the TomTom mobile navigation systems. There are a range of touchscreen sizes to choose from, ranging from 4.3 (Start 40) to 5 inches (Go 500 Europe), right up to 6 inches (Start 60 and Go 6000 Europe). The Start models are an ideal entry level solution and include all of the basic functions. The Go models have all of these basics, plus additional features such as 3D buildings, TomTom Traffic and voice controls. All versions come with free lifetime map updates and are preloaded with map data for 45 European countries.

#### Volkswagen Genuine navigation update

(not illustrated)

Never lose your way: The navigation DVD ROMs for the Crafter contain the latest map data for a number of European countries, and are available for many different radio navigation systems. For use with one device only.

#### 01 Travel and comfort system tablet holder

A real pleasure for passengers. The innovative tablet holder from the modular travel and comfort system range allows rear seat passengers to use a tablet conveniently and flexibly. It features a swivelling axis so that the tablet can be positioned both vertically and horizontally. And you can tilt and lock it so that it is always at the perfect angle. The travel and comfort system base module, which enables you to connect the tablet holder to a headrest, must be ordered separately.

#### Note

You can find the complete modular **travel and comfort system** on page 64.

#### 02 Volkswagen Genuine MEDIA-IN

Simply connect your preferred audio source to the MEDIA-IN port with the adapter cable and enjoy your favourite music via your radio or 3rd generation radio navigation system. Only in conjunction with the "RCD 310", "RCD 510", "RNS 315" or "RNS 510".

#### 03 Volkswagen Genuine iPod/iPhone adapter

Quickly and easily connect your iPod or iPhone to your Volkswagen Genuine radio navigation system. The adapter allows you to control your device via the radio. Can only be used in conjunction with the "RCD 210" or "RCD 310" (up to week 21/11) MP3 radios. For more information regarding compatible iPod/iPhone models, please refer to the attached price list.

#### 04 Volkswagen Genuine AUX-IN adapter

The AUX-IN adapter with jack is used to connect an external audio source, e.g. an MP3 player, to the Crafter's radio and navigation systems.

05

#### 05 Volkswagen Genuine adapter cable for Volkswagen Genuine MEDIA-IN

The right connection every time: The adapter cables for the factory-fitted MEDIA-IN socket make it easy to listen to your favourite music from various portable audio devices. Both the playback and your personal playlist can be comfortably controlled using the radio or radio-navigation system fitted in the vehicle. Unrestricted listening pleasure guaranteed.

- A Adapter cable for 3.5 mm jack
- B Adapter cable for mini USB
- C Adapter cable for USB
- D Adapter cable for iPod2, iPhone (up to 4S)
- E Adapter cable for Apple Lightning Connector
- not ill. Adapter cable for iPod
- not ill. Adapter cable for iPod (with ID3 tagging feature)

Please contact your Volkswagen dealership for more information about how to use the various adapter cables.

# Transport

There are some things you simply must have with you every day. You shouldn't have to worry about how to transport them. Which is why we have developed intelligent, future-proof transport systems for almost every scenario you can imagine. All of them completely practical and tailored specifically to fit your Volkswagen.

## Note

Image shows:

**Roof bars for the Crafter** page 32,

**High bracket set** page 42,

**Mud flaps** (for both front and rear) page 56

# Quality is when everything just works.

## For all those want more: even more.

More intelligent transport options, for instance. Or more tested safety features. Or simply more of the proven quality of Volkswagen Genuine Accessories. We don't take your trust in our Genuine parts for granted; we know we have to earn it again and again, day after day. By using materials which simply work better together, designing products which simply look better, and functions which simply open up additional opportunities. In short: We have a clear ambition to make good things better every day. More beautiful, more functional and safer.

## Uncompromising Satisfaction.

Harder, stronger, further, more – the Volkswagen testing procedures for transport systems go above and beyond the legally prescribed requirements. In terms of materials, in the laboratory and finally on the test track. Only 100 % top quality products earn the Volkswagen Genuine name. No compromises.

**Laboratory tests:** We carry out corrosion testing in saltwater spray systems, UV resistance and environmental compatibility checks and a number of other laboratory tests in order to examine all of the relevant material properties. Certain products are exposed to extreme temperatures in climatic chamber tests. The functionality of the components must be guaranteed and unimpaired at all times.

**Endurance:** Whether it is over short distances, at high speed or along demanding routes – we test our products' durability under continuous load conditions. The special road endurance test is carried out using the maximum permissible load and a variety of different testing profiles.

**Test track:** Our test drives with maximum forward and side to side acceleration, produced by weaving around obstacles, applying full brakes and driving on cobblestone surfaces, subject the accessories to extremely tough test conditions over and over again.

## Volkswagen Accessories.

**Because Genuine quality is always worthwhile.**

## Genuine quality is always worthwhile:

- Made-to-measure
- Intensive, certified safety tests
- Simple installation
- Sophisticated system solutions
- High design standards

# The City Crash Test. Because Safer Is Better.

Volkswagen's in-house crash tests are carried out at speeds and acceleration rates higher than those required by DIN 75302, ISO/PAS 11154 and the "City Crash" test – because Volkswagen believes that its own "City Crash Plus" tests at 30 km/h and a 20 % overload on the roof is more realistic than the standards set by DIN and ISO. The City Crash test simulates a rear-end collision in the inner city at a moderate speed of approximately 17 km/h. Although carried out by "Stiftung Warentest" and the "ADAC", it is not a legal requirement.

## 01 Volkswagen Genuine roof bars

Stay well equipped when on the move – with the Volkswagen Accessories support systems. These all use the custom-fit, aerodynamically-shaped aluminium profile roof bars as a base, which you can then use to attach fittings such as surf board, bicycle, ski and snowboard holders or our practical roof boxes to the vehicle roof in no time at all. The roof bars come completely pre-assembled and are not only City Crash<sup>1</sup> tested, but have also passed the even stricter standards of the Volkswagen City Crash Plus test. The easy-to-install aero profile minimises wind noise.

## 02 Volkswagen Genuine supporting rods

The custom-fit supporting rods are made using aerodynamic aluminium profiles and are not only City Crash<sup>1</sup> tested but have also passed the even stricter standards of the Volkswagen City Crash Plus test. They form a robust yet light base system for all attachments, and can be attached to the roof rails quickly and easily. The anti-theft locking device protects you from any nasty surprises. Roof bars are used as a base system on vehicles without roof rails (see 01).

## 03 Volkswagen Genuine roof bars for the Crafter

The City Crash<sup>1</sup> tested roof bars act as a base for all of our attachments, allowing you to expand the amount of cargo you can transport. They can only be used in combination with C-rails on the roof of the vehicle. Suitable for vehicles with normal roofs (load capacity: 300 kg) and high roofs (load capacity: 150 kg). 1 set = 3 roof bars.

## Volkswagen Genuine expansion kit for the Crafter

(not illustrated)

Add an additional single roof bar to your system to help you transport long and bulky objects easily and conveniently. Combine with the basic roof bars to mount a total of up to six roof bars on the roof.

## 04 Volkswagen Genuine storage bag for roof bars or supporting rods

This robust storage bag with the Volkswagen logo is suitable for all Volkswagen Genuine roof bars and supporting rods. The length of the bag is adjustable. There is also an additional compartment for storing the installation instructions and installation wrench.

<sup>1</sup>City Crash-tested in accordance with ISO/PAS 11154

#### 05 Surfboard carrier

Bringing your surfboard safely to its destination: The rubber-coated surfboard carrier and special rubber protector for the metal clamps on the tensioning straps provide extra protection during transport. Suitable for one surfboard with a two-piece mast.

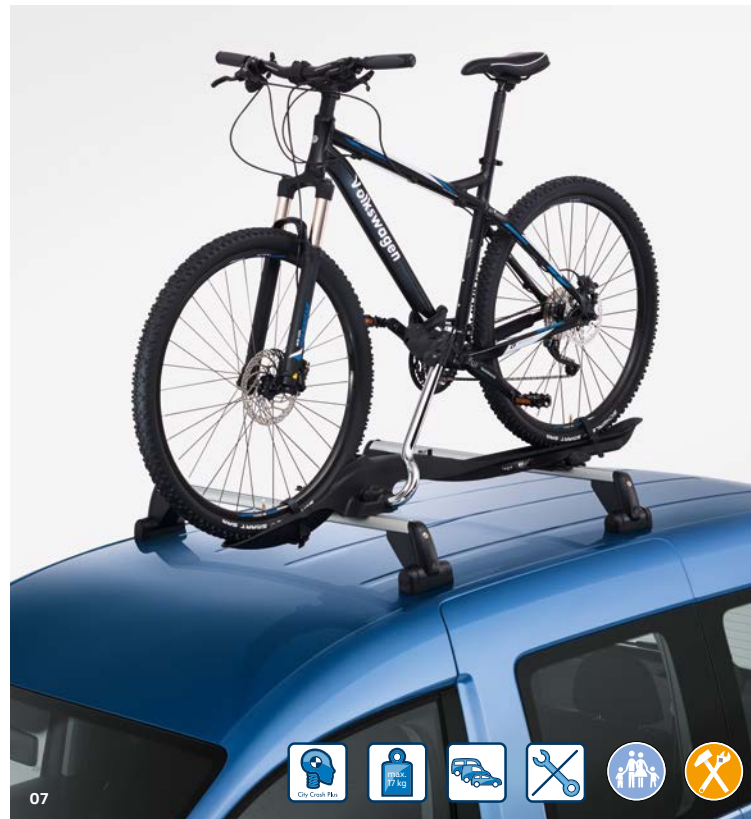

#### 06 Volkswagen Genuine kayak carrier

No bouncing, no slipping: developed specially for kayaks up to 25 kg in weight, the holder adapts to suit the shape of the kayak. Four moveable rubber supports secure the kayak during transport. Strong tensioning straps ensure that the kayak stays firmly in place.

#### Fork-mount bicycle carrier

(not illustrated)

Light, practical and easy to use – the lockable aluminium wheel rail and wheel holder attach to the roof bars or supporting rods easily, ensuring that your bicycles are transported safely

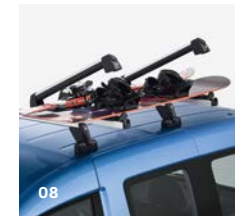

#### 07 Volkswagen Genuine bicycle carrier

The aerodynamic bicycle carrier is made from UV-resistant plastic, and can be mounted onto the supporting rods or roof bars. The bicycle automatically slides upright into the self-adjusting wheel receiver, leaving both hands free to fix it in place. The custom-fit, completely pre-assembled, lockable holder is not only City Crash<sup>1</sup> tested, but has also passed the even stricter standards of the Volkswagen City Crash Plus test. Maximum load capacity: 17 kg.

#### 08 Volkswagen Genuine Komfort ski and snowboard holder

The aerodynamically designed, lockable aluminium ski and snowboard holder is easy to install on supporting rods or roof bars. The ski holder features a practical pull-out function to make it easier to load and unload. The extra large buttons mean that it remains easy to open even when wearing thick ski gloves. Also available without pull-out function. Also suitable for transporting a wakeboard. See the attached price list for an overview of all available versions.

#### Note

The practical pull-out function makes the ski and snowboard holder very easy to load and unload.

#### 01 Volkswagen Genuine roof bars for the rail system

Flexibility creates freedom. The roof bars are mounted on the Amarok's rail system and provide an additional transport option on the loading surface. They can be used with a wide range of transport solutions. Only in conjunction with the rail system (see right).

#### Note

Image 02 shows:

Volkswagen Genuine Komfort ski and snowboard holder page 33

03

### 03 Volkswagen Genuine rail system

The rail system handles any transport task thanks to the universal side and floor rails. The sets for the side walls and the loading surface each consist of two rail profiles and four lashing strap fittings. The rails can be used with a wide range of fittings including straps, cargo nets and roof bars. This enables the cargo to be secured safely and without any risk of slipping around the cargo area. See the attached price list for an overview of all available versions.

### 03 Volkswagen Genuine net pocket for the rail system

The net pocket is suitable for stowing small objects and prevents them from flying loose around the cargo area. The net pocket is mounted onto the Amarok rail system.

#### Note

Additional information regarding lashing strap fittings can be found on page 44.

#### 01 Volkswagen Genuine roof box

The aerodynamic, City Crash Plus tested roof box creates minimal driving noise and is quick and easy to fit with a quick-action tensioning system. The box is fixed to the carrier by pumping the quick-action clamping mechanism. Further highlights include the innovative "DuoLift system" which allows it to be opened conveniently and easily from both sides, the pneumatic springs integrated at the front and rear, and optimal anti-theft protection with a 3-point central locking system. The roof box, made of DUROKAM® thermoplastic, is UV-resistant, light, dimensionally stable, impact-resistant and durable. See the attached price list for an overview of all available versions.

#### 02 Roof box, Matte Black

The roof box with a volume of approx. 340 litres has an optimised aerodynamic design that minimises unpleasant driving noises. The roof box has been adapted to the modern design of Volkswagen vehicles. It opens from one side and is equipped with a 2-lock system. The Comfort sliding fitting system enables you to fit the box onto the supporting rods or the roof bars in just a few easy steps.

#### Note

The innovative DuoLift system enables the roof box to be opened easily from both sides.

#### 03 Urban Loader roof box

The new and innovative Urban Loader roof box with expandable load capacity provides additional cargo space and is perfectly suited for transporting shopping, bags, suitcases, pushchairs and sports equipment, along with many other everyday necessities. The capacity of the roof box can be quickly and easily increased from 300 litres to 500 litres when needed. The zip fastener enables it to be opened, loaded and unloaded on both sides. The intelligent jointed steel frame with two springs makes the box easy to open and close.

#### 04 Volkswagen Genuine ski bag and storage bag

The practical ski bag can be used to protect and transport up to four pairs of skis, including ski poles, in the roof box or in the interior using a belt clipped into the belt buckle. The ski bag can be stowed in the optional space-saving storage bag.

Roof box							
Model	Colour	Volume [l]	Length, exterior [mm]	Height [mm]	Width [mm]	Weight [kg]	Load capacity [kg]
Size L	Titanium metallic	340	1900	390	750	19	75
Size XL	Titanium metallic	460	2300	390	750	21	75
Matte Black	Matte Black	340	1900	390	750	19	50
Urban Loader	Silver	300-500 (variable)	1408	259-517 (variable)	886	15	50

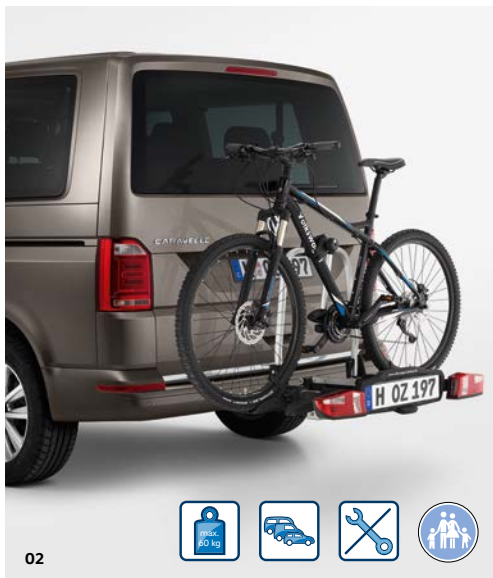

01

01

#### 01 Volkswagen Genuine tailgate bicycle carrier

This custom-fit tailgate bicycle carrier is made from anodised aluminium profiles and is designed to transport up to four bicycles. It is supplied pre-assembled, and is therefore very easy to install on your vehicle. The intelligent design means that you can still open the tailgate easily, even if the carrier is mounted (without bicycles). The bicycle carrier can hold up to 70 kg. The sliding bicycle rails and the locking arms (which can be removed with one hand) make it easy to load the carrier with up to 4 bicycles. The sliding mounting feet keep the bicycles firmly in the rails, while the quick-action tensioning system enables you to fix them into place quickly and easily. Includes a locking system on all mounting arms to deter thieves.

#### Note

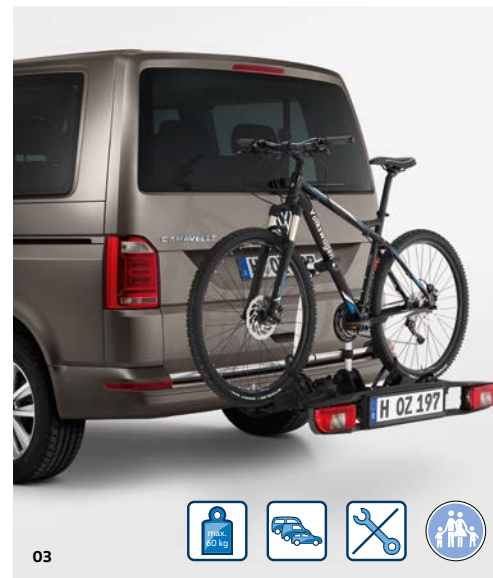

The entire carrier, including tail lights and bicycle rails, folds down to a compact size for storage and transportation. A practical storage bag provides optimum protection.

### 02 Volkswagen Genuine Compact II bicycle carrier

This small, light and compact folding bicycle carrier weighs only 14 kg, yet is capable of carrying two bicycles or electric bikes with a total weight of up to 60 kg. It attaches to the towing hitch with a patented quick-action fastening system. The carrier then adjusts itself to sit extremely securely on the trailer coupling with no need for any further intervention. The bicycles are fixed in place with lockable sliding spacers and a convenient ratchet system for the tyres. Fully folded down, it can be stored in the cargo area in no time at all. The Compact III bicycle carrier for three bicycles is also available upon request. A practical storage bag is included.

#### Note

The protective rear window grille provides valuable protection when transporting long or sharp objects and ladders in the vehicle interior.

#### Note

The storage bag allows you to store the Basic II bicycle carrier safely and securely. It can be pulled over the carrier without you having to remove it from the coupling.

### 03 Volkswagen Genuine Basic II towing hitch bicycle carrier

The fully powder-coated Basic II towing hitch bicycle carrier allows you to transport two bicycles. The galvanised components of the tensioner on the ball head make the carrier extremely durable and resistant to corrosion. They also provide optimum protection from environmental factors. It can be folded down to a compact size and its maximum load capacity of 60 kg and 1,300 mm wheelbase make it perfect for electric bicycles. Sliding wheel receivers keep each wheel in place, and the bicycle holders feature thick rubber coatings to protect the frames. The carrier and all bicycle holders can be locked individually with a single key. Includes four rim protectors to prevent damage during transport. A separate expansion kit that enables you to add a third bicycle is available separately.

### 04 Volkswagen Genuine storage bag for Basic II bicycle carrier

This storage bag (available separately) is custom-made to fit your Basic II bicycle carrier, allowing you to transport it cleanly and conveniently.

Bicycle carriers	max. number of bicycles	Weight [kg]	Load capacity [kg]	Dimensions H x W x D [cm]	Folded dimensions H x W x D [cm]
Tailgate bicycle carrier	4	15	70	92 x 153 x 49	–
Compact II	2	14	60	78 x 114 x 65	24 x 58 x 63
Compact III	3	16	54	78 x 114 x 79	24 x 58 x 79
Basic II	2	17.5	60	66 x 126 x 69	22 x 58 x 69
Basic II Plus expansion kit	for 3 <sup>rd</sup> bicycle	3.5	20	–	–

#### **01 / 02 Volkswagen Genuine towing hitch**

Whether you want to tow a boat, caravan or just need additional storage space, you need a practical, fixed or removable towing hitch. The electrical installation kit must be ordered separately. Instructions for use can be found in the attached price list.

**01 Removable**

**02 Fixed**

#### **Volkswagen Genuine electrical installation kit**

(not illustrated)

The electrical installation kit is designed to work perfectly with the control elements, provides a high level of system reliability and also supports the trailer stabilisation program. For vehicles without factory-fitted preparations.

### 03 Volkswagen Genuine towing bracket

The towing bracket enables you to switch quickly and easily between a ball head and bar coupling. The ball head is supplied in the scope of delivery. The electrical installation kit must be ordered separately. Please see the attached price list for instructions for use and all of the available versions.

### 03 Volkswagen Genuine rear step

Make entering and exiting the rear of the vehicle even easier and safer with the rear step. Not suitable for dropside vehicles. Can only be used in conjunction with the towing bracket.

### Volkswagen Genuine screw set

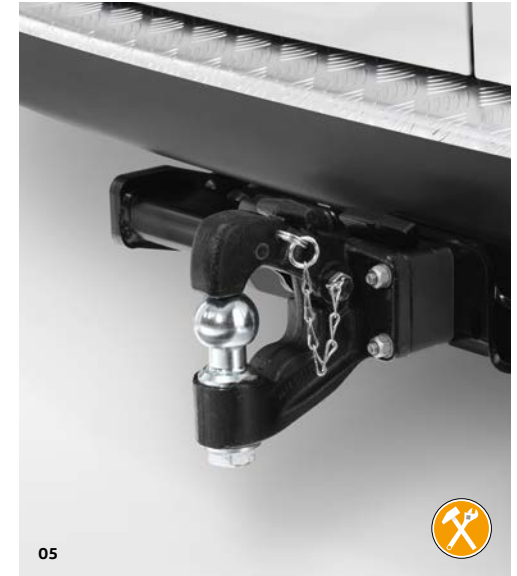

(not illustrated)

The screw set is an essential tool that makes connecting a towing device to the interchange plate system quick and easy.

### 04 Volkswagen Genuine drawbar coupling

Expand your transportation capabilities. The funnel-shaped insertion guide makes coupling a trailer with a eyelet simple, and prevents damage to the rear of the vehicle. Can only be used in conjunction with the screw set.

### 05 Volkswagen Genuine combined coupling

The combined coupling comprises a towing ball mounted on a four-hole pattern with an additional upper securing hook to prevent unintentional loss of the trailer. This also enables you to tow trailers with eyelets.

#### 01 Volkswagen Genuine luggage rack

The luggage rack provides a wide range of transport options. The end tubes can be assembled in such a way as to create a flat loading surface, enabling you to transport longer objects. The rack is made from plastic-coated steel and is therefore exceedingly robust and weather-resistant. It can be mounted easily and quickly onto the roof bars. For the T6.

#### 02 Square carrier with high bracket set and ladder holder

The black powder and plastic coated square carrier serves as a base for commercial accessories. Products such as the ladder holder or the high bracket set can be attached to the durable steel plate, or it can simply be used as a robust transportation system. For the Caddy.

#### 03 Volkswagen Genuine ladder holder

Transport ladders without scratching the roof of the vehicle and ensure that your load arrives safely. Only for use with roof bars on the Crafter, T6 and Caddy. Consists of 4 angle brackets (for T6 and Caddy) or 4 high brackets, 2 tensioning straps and a rung clamp for the Crafter.

#### 04 Volkswagen Genuine roller

This smooth roller is installed on the rear-most roof bar. It makes loading the roof with bulky cargo child's play. Once placed on the roller, pieces of furniture or ladders can be simply pushed forward, without scratching the paint or leaving unsightly marks behind. Can only be used in conjunction with the roof bars.

#### 05 Volkswagen Genuine high bracket set / angle brackets

The high bracket set and angle brackets are ideally suited for transporting long objects safely and securely. The brackets can be used to fix items such as wooden planks securely to the roof bars. The shaped steel strip bracket is fully galvanised.

#### 01 Volkswagen Genuine floor board with lashing rails

The durable Soboflex material used for this two-part floor board reduces both noise and the risk of slipping. The three integrated lashing rails make the process of transporting goods much more convenient and can be used to attach a wide range of accessories.

#### 02 Volkswagen Genuine lashing strap fitting

The lashing strap fitting ensures that your cargo is always securely fixed in place. It is attached to the lashing rails or an individual lashing point on the tensioning rod on the Crafter and T6, or to the rail system on the loading surface or the side wall on the Amarok. The design may vary depending on the vehicle.

#### 03 Volkswagen Genuine lashing strap with ratchet tensioning lock

The lashing straps can be used to secure even large, heavy loads to the lashing rails in the cargo area. Simply attach the lashing strap fitting and secure the cargo in place with the ratchet tensioning lock on the lashing strap.

#### 04 Volkswagen Genuine lashing strap with clamping lock

The perfect tool for rapidly and reliably securing your cargo. Simply attach the integrated lashing strap fitting to the lashing rails and secure the cargo in place with the clamping lock on the lashing strap.

#### 05 Square holder

The square holder is a professional tool that makes it easy to lock loads such as pallets securely into place. The square holder is equipped with a lashing ring. 1 set = 2 pieces.

#### 06 Volkswagen Genuine individual lashing point

For securing loads of any size or shape. The individual lashing point is mounted onto the square tensioning rods in the cargo area and is used in combination with the lashing strap fitting. 1 set = 2 pieces.

#### 07 Tensioning rod

Easily inserted into the lashing rails, the tensioning rod can be used to secure a diverse range of cargos, such as doors and boards, preventing them from slipping. It effectively and efficiently stabilises the load in the central area.

#### 08 Volkswagen Genuine load securing set

The silver-grey hardshell box contains ratchet and securing belts, edge protection tubes and non-slip mats. It includes a brochure with practical load securing examples for the Crafter and T6. The load distribution plan helps you to determine the centre of gravity and fulfil the legal requirements for load securing on every journey.

#### 09 Volkswagen Genuine telescopic ladder

The bolt locking mechanism releases with a single movement, allowing you to bring the ladder to its full length in seconds. To keep it held securely in place, it can either be attached to the roller on the rear of the vehicle or to the side of the luggage rack. The sliding door can still be opened fully, even when the vehicle is fully loaded. The ladder is also kept securely in place throughout your journey: it is attached to a mounting bracket on the inner side wall and secured with the tensioning strap.

# Transport

This overview shows the options available for the individual products in our Transport range for our current vehicle models. Please contact your Volkswagen Partner for more information as to whether the options can be installed on your particular vehicle. Many of the products are available in different versions. **Travel and comfort system** page 64,  
**Door wind deflector** page 58, **Side bar** page 09

#### 01 Volkswagen Genuine reversible luggage compartment mat

Soft and gentle velour on one side and durable, non-slip plastic studs on the other: The custom-fit, reversible luggage compartment mat has the right surface for all sensitive, dirty or damp goods. Some models include a robust protective cloth for the loading sill. This can be folded out from the reversible mat as needed to help to prevent scratches during loading and unloading. For the T6 and Caddy.

#### Detail

Once turned into place, the sturdy plastic studs on the rear side of the reversible luggage compartment mat ensure a perfect hold, so it can protect your vehicle from even heavy dirt and loads.

#### 02 Volkswagen Genuine luggage compartment liner

Light, flexible, custom-made protection: The non-slip liner is designed to fit the shape of the luggage compartment perfectly and protect it from dirt and moisture. When not in use it can be rolled up and easily stowed away to save space. For the T6 and Caddy.

### 03 Volkswagen Genuine luggage compartment tray

A perfect fit: Washable and acid-resistant, the robust and durable luggage compartment tray with vehicle model lettering is the easy way to keep your luggage compartment clean and tidy. It features a rim all the way around to prevent liquids from leaking into the luggage compartment. For the T6 and Caddy.

### 04 Volkswagen Genuine luggage compartment loadliner

The wide-ribbed luggage compartment loadliner with vehicle model lettering is extremely hard-wearing, acid-resistant and suitable for anything which tends to make a mess during transport, such as dirty shoes or plants. The loadliner protects the luggage compartment against dirt and features a smooth plastic surface to make it easy to clean. Depending on the vehicle model, the luggage compartment loadliner can be fitted with additional lids, partitioning elements, stretch bands and fastening hooks. For the T6 and Caddy.

### 05 Volkswagen Genuine luggage net

Everything in its place: The tear-resistant luggage net is ideal for all of those small and medium-sized items you prefer to keep stored safely away. The luggage net is attached to the standard lashing eyelets in the cargo area. For the T6 and Caddy.

#### 01 Hardtop cargo area cover

The Amarok Lifestyle hardtop features the classic Amarok design and is an easy way to expand your transportation capabilities. It protects your goods from theft and – thanks to the vehicle tailgate seal included with the hardtop – the weather, too. The innovative, sprung tailgate with heated glass window and two large glass windows on the sides enable you to reach the loading surface easily from all sides. The tailgate on the hardtop can be unlocked using the vehicle's remote control, and there is an additional remote control to unlock the two large side windows. So you can open the hardtop with just one hand. You do not need to drill any holes into the cargo box to attach the hardtop as it comes with 6 specially designed brackets. The mounting system is incredibly compact. A stylish spoiler is integrated into the tailgate, which also holds the 3 brake lights. The interior includes LED lighting, so you can still see your goods after dark. See the attached price list for an overview of all available versions.

#### 02 Cargo area cover, rolling, aluminium

The black cargo area cover provides reliable protection for the loading surface and the cargo. It features a locking mechanism and is made from durable, weather-resistant aluminium with a vinyl coating. The cover can be opened in increments which makes it easier to transport larger objects. An additional installation kit that enables you to combine the cover with the styling bar is available separately.

#### 03 Cargo area cover, folding, 3-part

The 3-part, foldable cover is made from robust ABS and reliably protects the cargo area from dirt and grime. It can only be installed with the styling bar. The cover opens and closes with pneumatic springs and can be locked with an additional key. Available in White (suitable for painting), Candy White, Reflex Silver Metallic and Deep Black Pearl Effect. See the attached price list for an overview of all available versions.

#### 04 Cargo area cover, folding, plastic

The lockable cargo area cover provides optimum protection for both the cargo area and the cargo itself. In a matter of moments, the cover can be folded up and locked in place, supported by two pneumatic springs, ensuring that you always have immediate access to the cargo area. The robust, weather-resistant plastic can be painted the same colour as the vehicle to harmoniously match the overall appearance. The cargo area cover can be mounted both with and without the styling bar.

#### 05 Tarpaulin and mounting

Quickly and easily protect your cargo and the cargo area against the weather. The tear-proof tarpaulin can be mounted on the quick-release brackets in a matter of moments. This protects your cargo against UV rays and rain. The tarpaulin can only be mounted without the styling bar.

#### 06 Volkswagen Genuine cargo area cover, aluminium

It's got everything covered. This lockable cargo area cover made from sturdy aluminium reliably protects the cargo area and the cargo itself against the weather. Easy to fold away, supported by pneumatic springs, the cover does not affect the loading or unloading process. Cannot be used in combination with the styling bar.

#### 07 Cargo area cover, folding, 1-part

The 1-part cover is made from durable ABS and is available in either grained black or paintable white. Its pneumatic springs and cable make it easy to open and close, and it effectively protects the loading surface from dirt and grime. It opens up to a 45° angle. The cover can be locked with an additional key.

**01 Volkswagen Genuine cargo area liner, aluminium**

Tailor-made protection from scratches and cargo damage: the cargo area liner. Made-to-measure corrugated aluminium sheets protect the front wall, loading surface and tailgate, while the side walls are protected with a custom-fit plastic tray.

**02 Cargo area loadliner**

Effective protection for the Amarok's loading surface. The custom-fit plastic tray protects the front wall, loading surface, tailgate and side walls from scratches and cargo damage, but still fits in with the classic, robust Amarok look.

#### 03 Loading surface toolbox

This toolbox offers a generous amount of space for your tools and other important pieces of equipment you need when on the road. The lockable toolbox provides optimum protection against the weather and spans the entire width of the cargo area between the wheel arches. Two pneumatic springs make the toolbox easy to open, load and unload.

#### 04 Volkswagen Genuine rear window grille

The rear window grille is made from black powder-coated steel and is ideal for transporting extremely long objects as they can be laid from the loading surface up to the top of the grille without scratching the roof. Ladders can also be attached securely to the integrated mount.

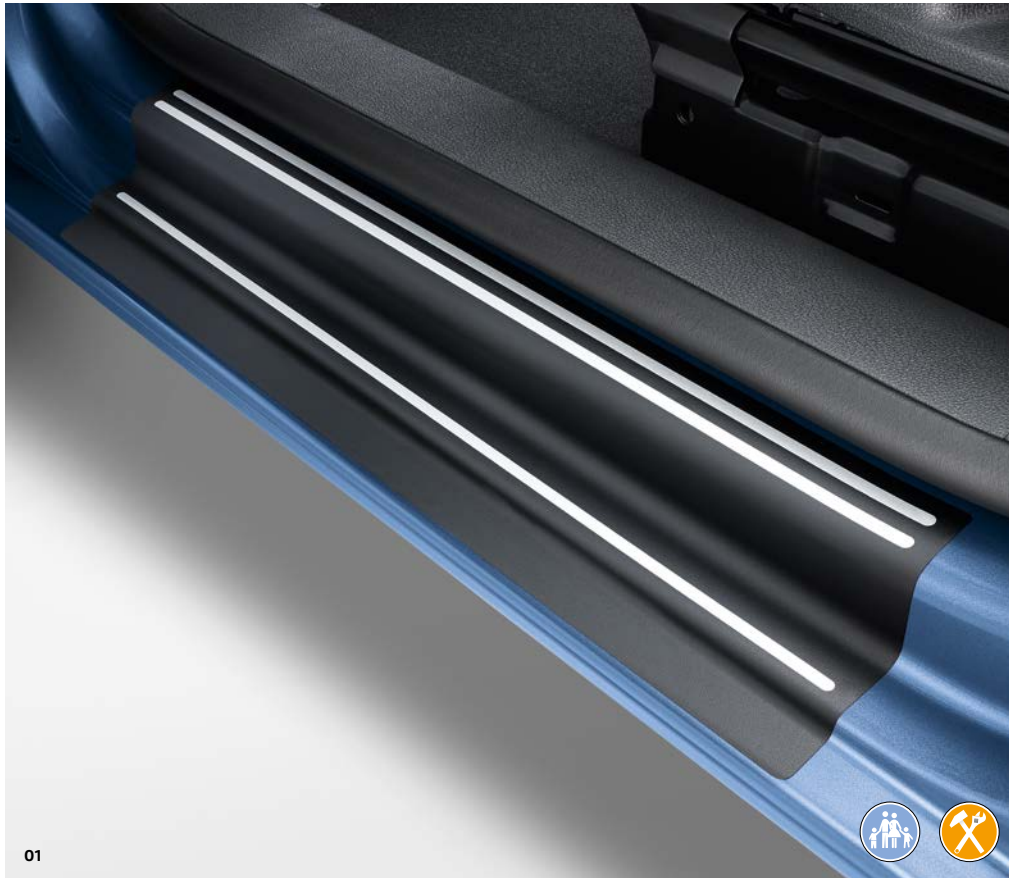

#### 05 Volkswagen Genuine underride guard

For optimum protection on any terrain. The underride guard is made from incredibly impact-resistant, durable material and provides effective protection for both the gearbox and the fuel tank. Make the Amarok's underbody just as strong and durable as the Amarok itself.

**01 Volkswagen Genuine sill protector film, Black/Silver**

A detail which both looks good and does good – the film protects the paintwork on the heavily used door sills in the front and rear entrance areas from scratches and damage.

**02 Volkswagen Genuine loading sill protection film, transparent**

The practical, custom-fit loading sill protection is made from transparent film and prevents damage when loading and unloading. For gluing onto the loading sill on the rear bumper.

**03 Volkswagen Genuine mud flaps**

Protect your own vehicle and the one behind from flying dirt, dangerous stone impacts and spray with these extremely durable mud flaps. Available for both front and rear.

**04 Volkswagen Genuine Park Distance Control system, rear**

The Park Distance Control system is automatically activated when the vehicle is put into reverse: Four sensors and an acoustic warning signal help the driver when reversing into a parking space. The system uses the infotainment system display in the Caddy.

**05 Volkswagen Genuine loading sill protection, stainless steel effect**

The stainless steel effect loading sill protection not only protects the paintwork during loading and unloading, but also gives your vehicle a distinctive look. It attaches quickly and easily to the loading sill on the rear bumper.

**06 Volkswagen Genuine protective strip for the tailgate**

Made from high gloss chrome, this protective strip is not just an eye-catching feature; it also provides effective protection for the edges of the tailgate. It is very easy to attach as it simply glues on to the lower edge of the tailgate.

#### 07 / 08 Volkswagen Genuine all-weather floor mats / rubber mats

Keep your footwells clean all year round: The custom-fit, durable floor mat set not only keeps dirt and dampness away from the floor of your vehicle, but also reduces odours and is up to 100 % recyclable. The front mats are attached to the vehicle floor using the integrated fastening system to prevent slipping. Colour: Black.

**07 Set of 2 mats**

**08 Set of 3 mats for the T6**

#### 09 Volkswagen Genuine Premium textile floor mats

The textile floor mats are shaped to fit your vehicle's footwells perfectly and are made from hardwearing, thick woven velour. They are fixed in place using the attachment points in the floor area. The rear mats feature a wear-proof coating on the back to prevent them from slipping. Design may vary depending on the model.

#### 10 Heavy Duty rubber floor mats

The innovative "Heavy Duty" rubber floor mats with Volkswagen lettering absorb moisture and dirt like a sponge. The mats are shaped to fit the vehicle precisely and feature thick, profiled grooves and a slightly raised border. A specially designed fastening system prevents them from slipping on the vehicle floor.

#### 11 Plus rubber floor mats

The "Plus" rubber floor mats are fixed in place with the Volkswagen attachment system and provide excellent protection from moisture and dirt. The floor mats are non-slip, washable and very easy to clean.

#### 12 Plus textile floor mats

The "Plus" textile floor mats are made from velour, and fit perfectly into your vehicle's footwells with the Volkswagen attachment system. They feature a non-slip coating on the back, as well as robust impact protection in the heel area and a textile border.

#### 01 Volkswagen Genuine partition grille

The partition grille is fitted between the rear seat backrests and the roof lining to separate the passenger area from the luggage compartment. The robust, black, powder-coated steel grille attaches quickly and conveniently behind the rear seat. Assembly is simple and no holes have to be drilled. The luggage compartment cover can also be used with the partition grille. For the T6 and Caddy.

#### 01 Volkswagen Genuine partition

For a tidier luggage compartment. This practical partition can be fixed to the existing attachment points in just a few quick steps. Can only be used in conjunction with the partition grille. For the Caddy.

#### 02 Volkswagen Genuine door wind deflector

This optimum form of ventilation for the vehicle interior helps to increase driving comfort by improving the atmosphere inside the vehicle. Enjoy constant fresh air, even when it is raining or snowing, or avoid the unpleasant build-up of heat on hot days by opening the windows slightly. These low-maintenance, carwash-resistant wind deflectors are made from high quality, recyclable acrylic glass. Colour: Smoke Grey. For the T6, Caddy and Crafter.

### 03 Wheel arch trim

The wheel arch trim is an ideal accessory, even if you already have interior trims in place. It has been specially manufactured for unprotected wheel arches. Its flexible and UV-resistant material protects the painted wheel arches from scratches and damage and thus helps the Transporter to maintain a high resale value. For the Crafter.

### 04 Volkswagen Genuine seat covers for tradespeople

The easy to clean and durable leatherette protects the driver and passenger seats against dirt, wear and damage. The robust surface is resistant to puncturing, cutting, tearing and even sweat. The material is fixed in place at the sides and the smooth surface makes it easier for the passenger to get in and out. All versions are suitable for use with side airbags. They can also be used in combination, either with or without armrests. For the special single-part version, the backrest and seat surface are combined to form a single piece. For the Crafter.

### 05 Volkswagen Genuine protective rear window grille

The protective rear window grille is made from black powder-coated steel and is ideal for transporting extremely long objects as they can be laid from the loading surface up to the top of the grille without scratching the roof. Ladders can also be attached securely to the integrated mount.

### Volkswagen Genuine velour carpet

(not illustrated)

This sophisticated, custom-fit floor mat is made from high quality Volkswagen velour and features a non-slip coating on the back to ensure a secure fit and improve durability. The velour carpet can be cleaned with a vacuum cleaner. Colour: Anthracite. For T6 with sliding door.

#### Note

The protective rear window grille provides valuable protection when transporting long or sharp objects and ladders in the vehicle interior.

#### 01 "Volkswagen Edition" espresso machine including espresso pods

Attention espresso addicts: You no longer have to find a service station to enjoy your coffee break. The mobile in-car espresso set means you always have your own little coffee bar on board. Simply stop for a break, connect the machine to the 12V socket inside your vehicle and enjoy a freshly brewed espresso. The set includes two break-proof espresso cups, a serviette and 25 espresso pods, as well as an elegant and practical storage case.

#### 02 Volkswagen Genuine waste container

Get rid of sweet wrappers and chewing gum quickly and easily with the Volkswagen waste container. Simply place it in the cup holder, and remove it again when not required. The convenient way to keep the vehicle clean on long journeys.

#### Note

The set can be stored away easily and securely in the storage case included.

### 03 Volkswagen Genuine cool and thermos box

So your snacks always stay at the perfect temperature. The energy efficiency class A++ box connects to a 12V/230V socket, either in the vehicle or at home. Two-litre bottles can be transported upright in the box, which has a capacity of approx. 25 litres. It is delivered with a battery discharge protection device and a replacement insulating cover.

### 04 Volkswagen Genuine refrigeration and insulation box

Picnic, lunch or dinner? The refrigeration and insulation box for the Multivan or California Beach has a capacity of approx. 32 l and can be securely connected to the existing rail system in your vehicle with a special attachment system. It boasts a 48 W power supply to ensure that your snacks are always at the correct temperature, whether you want them hot or cold. The box has a removable lid, an integrated dividing grille and is suitable for carrying 1 l bottles in an upright position.

### 05 Volkswagen Genuine Snakey headrest hook

Twin pack of practical organisers for mounting on the front seat headrest struts. Simply hook on whatever you want, and off you go. The Snakey hook is available in Black and Cornsilk Beige.

### 06 Volkswagen Genuine clothes hanger<sup>1</sup>

Sometimes things just have to be crease-free: This stylish clothes hanger can be quickly and easily attached to the headrest struts on the front seats. So you can hang up your shirts, jackets and other similar items of clothing, keeping them free from creases.

### 07 Volkswagen Genuine Clean Solution waste bag<sup>2</sup>

No waste, no worries: The waste bag attaches to the headrest struts on the front seats. When a bag is taken out, a new one is automatically pulled into place. Includes two rolls, each with 50 bags.

<sup>1</sup> Only usable if a passenger is not seated in the rear seat behind it.

<sup>2</sup> Not for vehicles with electric headrests.

#### 01 Volkswagen Genuine tailgate tent

The tailgate tent attaches quickly to the open tailgate of your T6, giving you a practical extension to your living space for your camping holiday. It is not only suitable for leisure activities, but also for work use, e.g. as a shower cabin or toilet space, to protect against the weather or even to provide better ventilation to the sleeping area in summer. The tailgate tent features a closable mosquito window and an additional removable tunnel entrance. It is made from mould and flame-resistant material. Suitable all T6s with a tailgate.

#### 02 Volkswagen Genuine Multiflex board

The Multiflex board adds a second level to your cargo area. It can be used as a practical loading surface or – with the folding bed board – as a versatile storage option. The covered foam pads are available in three colours to match the vehicle fittings. For the Multivan.

#### 03 Folding bed

The new iXTEND Multivan / California Beach folding bed spreads across your existing bed. The comfortable padding and intelligent design ensure you always get a good night's sleep. Das iXTEND Multivan / California Beach comes in four parts and can be quickly folded up and stored on the rear pad. When required, simply fold it out towards the front. Having this folding bed across the full width of the vehicle means that you get a very comfortable surface to sleep on, even in the California Beach.

#### 04 Shower set with shower head

Take a personal water supply with you wherever you go with this practical shower set. Whether you make use of the tailgate tent and use the shower set for showering, or just use it to rinse your dishes, spray down your dogs after a walk or clean your vehicle – with the mobile shower set, you're ready for anything. The set includes: Immersion pump – 12 l/min, 0.6 bar, adjustable shower head with 2 m shower hose, 4 m power supply cable and 12 V plug, 20 l folding canister, floor mat, shower gel, suction hooks and transport box.

#### 05 Volkswagen Genuine mounting bracket for the multi-attachment point

The ideal basis for adding even more functionality to your Amarok. This mounting bracket enables you to retrofit the multi-attachment point, which gives you the option of installing a range of additional customisable functions on the instrument panel. Easy to both see and access when driving, this product can be expanded to include a picture holder, note holder, magnetic holder or cup holder. Suitable for the basic equipment version. For the Amarok.

#### 06 Volkswagen Genuine note holder

Now you can position important notes, telephone numbers or to-do lists right where you can see them. Simply clip the notes in and you are ready to go. The practical note holder is mounted onto the multi-attachment point (either included as standard or retrofitted using the mounting bracket), keeping your notes in view at all times. For the Amarok.

#### 07 Volkswagen Genuine magnetic holder

Keep small items like keys and pens right where you need them. This magnetic holder can be used to store a wide range of metallic objects weighing up to 30 g. The magnetic holder is mounted on the multi-attachment point, which is either included as a standard feature or retrofitted using the mounting bracket. For the Amarok.

#### 08 Volkswagen Genuine picture holder

Keep your favourite pictures where you can see them. The picture holder is mounted on the multi-attachment point, which is either included as a standard feature or retrofitted using the mounting bracket. The holder uses a simple click system to keep pictures in place, so you can change them easily whenever you want to. Diameter approx. 4 cm. For the Amarok.

#### 09 Volkswagen Genuine cup holder

This practical cup holder is suitable for cups, bottles or cans. It is mounted on the multi-attachment point, which is either included as a standard feature or retrofitted using the mounting bracket. Suitable for the Amarok Trendline and Highline equipment versions with ring holders, as well as the basic equipment version without a ring holder. For the Amarok.

### Modular travel and comfort system

Practical, convenient, flexible: The innovative, modular travel and comfort system is a versatile solution that helps to keep your vehicle interior clean and tidy. It keeps important objects within easy reach of the passengers seated in the rear seat. The system consists of a base module which is fixed between the front seat headrest bars and various additional modules available separately. These include a portable clothes hanger, a robust bag hook, swivelling tablet holders for models from various manufacturers and an adjustable folding table with a cup holder<sup>1</sup>. So any breaks in the journey become a real pleasure!

- 01 Folding table with cup holder<sup>1</sup>
- 02 Clothes hanger<sup>2</sup>
- 03 Bag hook
- 04 Tablet holder for Apple iPad Air

- 05 Tablet holder for Apple iPad 2-4
- 06 Tablet holder for Apple iPad mini
- 07 Base module
- 08 Tablet holder for Samsung Galaxy Tab 3/4 10.1

<sup>1</sup> The folding table with cup holder must be folded away during your journey if a passenger is sitting in the rear seat behind it.

<sup>2</sup> Only usable if a passenger is not seated in the rear seat behind it.

iPad/iPad Air/iPad mini are registered trademarks of Apple Computer International. Galaxy Tab is a registered trademark of Samsung Electronics Co., Ltd.

---

**Note**

Complete flexibility: The swivelling axle allows you to use the tablet in both portrait and landscape modes.

---

**Note**

One base, so many options: All modules can be mounted onto the base module and interchanged as required.

# Keeping Your Little Ones Safe.

Music boxes, teething rings, picture books or story books, all ages have their own milestones – whether small or large. Every stage of development also has its own challenges. That is why we have developed child safety seats for each age group. Each one is designed to be incredibly comfortable and easy to use, and also exceeds the requirements of the ECE-R44/04 standard. All covers can be easily removed and washed at 30°C. And the most important point: Your child is always well protected when travelling.

## 01 Volkswagen Genuine G0 plus ISOFIX

High levels of protection and comfort for newborns and babies up to 13 kg or 15 months old: The ISOFIX fastening system ensures that the child seat and its base frame are securely fastened to the vehicle body. In vehicles without an ISOFIX system, the seat can be attached with any 3-point belt. The child is held securely in the seat with an adjustable 5-point safety harness. Further features include an adjustable handle, an easily removable, washable fabric cover, an adjustable seat insert and a sun shade.

## 02 Volkswagen Genuine G1 ISOFIX DUO plus Top Tether

Excellent levels of safety and comfort for children weighing between 9 and 18 kg (from eight months to about four years old). The belt harness height can be adjusted and the seat position can be configured in multiple ways. In addition to the tried and trusted locking system of an ISOFIX connection, the seat can also be secured to the provided fasteners in the luggage compartment using the "Top Tether" connection in certain vehicles – providing additional safety.

## 03 Volkswagen Genuine G2-3 ISOFIT

Children aged between three and twelve years (15 to 36 kg) can travel safely and comfortably with features such as the height-adjustable sleep supports, and the option of adjusting the height and inclination of the seat to suit the individual needs of the child. The seat is attached using the vehicle's ISOFIX anchorage points. The child itself is buckled in with a 3-point seatbelt.

**GTI version also available.**

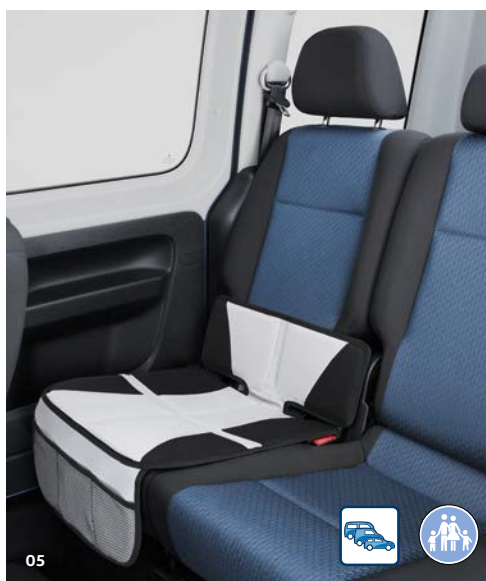

#### 04 Volkswagen Genuine additional interior rear view mirror

For better visibility, and to help you keep a watchful eye on children in the back seats: The additional interior rear view mirror is fixed to the windscreen or the dash panel using a suction cup and features a flexible joint that allows you to adjust it to take in the interior, the traffic outside or for parking.

#### 05 Volkswagen Genuine seat cover

Optimum protection for sensitive seats: The easy-to-clean, non-slip seat cover prevents dirt and wear, for example from child seats. Practical mesh pockets offer additional storage space. Can also be used with ISOFIX seats.

#### 01 Volkswagen Genuine care and cleaning products

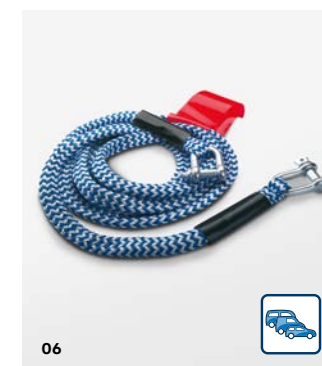

The care and cleaning products have been developed to work perfectly together both in and on the vehicle. Every product is ISO-certified and has also been tested and approved by Volkswagen's central laboratory. For long-term, effective vehicle care which protects both the material and the environment. Please see the attached price list for more detailed information about the individual products, as well as the seasonal care and cleaning sets.

#### 02 Volkswagen Genuine first aid kit

This DIN standard first aid kit is an essential tool in the event of an accident. Meets the legal requirements of § 35h of the German Road Traffic Licensing Regulations and DIN 13 164.

#### 03 Volkswagen Genuine breakdown assistance safety package

The safety packages contain a selection of products that may come in useful in the event of an accident or breakdown. All of the products in a set are supplied in a durable bag with two non-slip Velcro strips on the underside. See the attached price list for an overview of all available sets.

#### 04 Volkswagen Genuine safety vest

This fluorescent safety vest with Volkswagen lettering and reflective strips conforms with DIN EN 471. As of 1 July 2014, all drivers in Germany are required by law to carry a safety vest in their vehicle (with the exception of motorbikes and mobile homes); in some countries, a safety vest must be carried for all vehicle occupants. A storage pouch is included. Colour: orange.

#### 05 Volkswagen Genuine warning triangle

The intelligently designed warning triangle is ECE certified, requires minimal storage space and features a swivelling metal foot to help you set it up quickly and safely.

#### 06 Volkswagen Genuine tow rope

Always on the safe side: the TÜV and DIN-tested tow rope can be used on vehicles with a gross weight of up to 2,500 kg.

07

08

09

10

#### 07 Fuel canister

A long journey ahead and no service stations along the way? The 5 litre fuel canister helps you bridge the distance to the next service station. The canister comes with two filling tubes, one for diesel and one for petrol.

#### 08 Volkswagen Genuine valve caps

Customisation down to the smallest detail: These four valve caps are embossed with the Volkswagen logo and protect the valves from dust, dirt and moisture. Suitable for aluminium valves and rubber/metal valves. 1 set = 4 pieces.

#### 09 Volkswagen Genuine wheel bolt locking set

Secure your alloy wheels even more effectively against jealous thieves with the wheel bolt locking set. Colour: Black. 1 set = 4 pieces.

#### 10 Volkswagen Genuine tyre bag set

Protect your wheels. With the four robust, high-quality polyester tyre bags and wheel bolt bag. For tyres and complete wheels up to 18 inches with a 245 mm tyre width and a 2100 mm tyre circumference.

11

#### 11 Volkswagen Genuine Snox snow chain (powered by pewag)

The innovative Snox system controls the snow chain tension completely automatically and adapts to the vehicle's current speed – ensuring it runs smoothly. When the vehicle stops, the locks release automatically and the snow chain can be removed in any wheel position. Includes a practical storage bag. Now with a new "Quick Release" function to make removing the chain even easier.

## Comfort and Safety

This overview shows the options available for the individual products in our Comfort and Safety range for our current vehicle models. Please contact your Volkswagen Partner for more information as to whether the options can be installed on your particular vehicle. Many of the products are available in different versions. See the attached **price list** for an overview of all available versions.
